

Cops Direct is the only not for profit organization of its kind – enhancing the safety and efficacy of our nation's law enforcement officers. Cops Direct is available to any department in the United States and since our inception in 2015 we have supported agencies in over 35 states. Cops Direct provides its support at no cost to the requesting agencies as we are funded by the generosity of the public and private sector.

**What Cops Direct Does:**

**TRAUMA CARE**

Cops Direct supplies underfunded agencies with first responder trauma equipment custom tailored to their needs and specifications. With an average EMS response time of 17 minutes nationally and mass casualty incidents on the rise, empowering officers to render immediate and lifesaving medical care to themselves, a fellow officer or to the public enhances their ability to serve the citizenry that they are sworn to protect.

**INSTRUCTION & TRAINING**

Cops Direct facilitates tactical and medical instruction for agencies where such training is either lacking or completely unavailable. We know that having the proper training from the best instructors in the space is as important as the tools that law enforcement officers utilize. Subsequently, the more practical knowledge an officer has, the better they can affect their tasks when the time arrives.
